January 6, 2011

Marion:

Thank you for visiting our website recently and joining **The Canadian Financial Security Program**. I want to welcome you to our program, tell you a little about what you can expect from your membership, and introduce you to one of our **associated financial consultants** who help our members in your area.

We realize that some people join just to have access to the **Will Kit, Tax Materials, Canadian Legal Forms and Documents**, and other **FREE** downloads and we are happy to accommodate. Completing your Will is important, and **one** of the **four** cornerstones of financial security. But, this program is also about **saving serious tax dollars**, knowing **how to invest - safely** and what to expect, finding out the **truth about life insurance** (most people have the wrong kind and/or not enough of the proper kind), and much more! This program can save you a fortune, and a lot of regret.

If you forgot to record the site, here is our web address for your records: [www.truehelpfinancial.com/members](http://www.truehelpfinancial.com/members).

On behalf of our organization, I would like to take this opportunity to introduce our **associated financial consultant** who lives in your area. **Robert Advisor** is a very experienced consultant in many financial areas with special expertise in the areas of safe investing, identifying proper life insurance needs, and helping our members understand medical and disability insurance – one of the most overlooked financial needs for our members.

Here is Bob's contact information:

**Robert Advisor**  
**20 Main St. – Suite 102**  
**Calgary, AB T2W 3P2**  
**Phone: 403-000-0000**

Canadians **are** sick and tired of being **over-taxed**. People don't know what to believe any more when it comes to **investing**. Up to **90%** of Canadians die with **inadequate life insurance**, and pay far too much for what they do have. Uncorrected, these financial errors can literally ruin your future and compromise your family's security.

The Canadian Financial Security Program is there to help members in two ways:

- By providing candid, well researched financial information and documents free of charge through our websites. This information will be constantly updated, and more topics and downloads will be added as we respond to our member's needs. Please visit [our Member's Website](#) often.
- Independent Financial Consultants across Canada have agreed to help members on many of the topics that we cover.

Again, welcome, and may I wish you every success in your financial endeavors.

Sincerely,

Michael F. Murphy, President
